

Standard Reports take up to of a **network** analyst's time

A **NEW** and more **EFFICIENT** approach to your proposal process.

YOUR CURRENT PROPOSAL PROCESS -**SLOW, LIMITED & COSTLY**

DECISION: what product to bid **REQUEST MATCH PRODUCT FULFILL REQUEST** $0\Delta\Box$ ОДП **PROPOSAL SALES ANALYST SALES ANALYST SALES CUSTOMER** custom access

- Sales and analyst run multiple access analysis reports to find best product fit with proposal
- Often requires multiple iterations
- Based on results. rep decides what product to bid
- Sales requests access report required in proposal from analyst using product configuration identified in step A
- Analyst fulfills request for all standard and
- custom reports Sales submits bid to customer or broker

REQUEST PROCESS CAN TAKE DAYS TO WEEKS

TIME CONSUMING

- Analysts spend too much time running "standard" network reports when their time would be better served assessing more complex proposal requirements
- Sales spends too much time completing request forms for every report

SLOWS SALES CYCLE

- Rigid processes contribute to missed proposal deadlines
- Sales runs risk of losing sales opportunities

LIMITED VISIBILITY

- Analysts lack insight into reporting influx
- Sales lacks visibility to the status of their requests
- Sales often lacks the ability to explore all product match possibilities prior to submitting a request, the back and forth creates a lot of wasted time and energy from both departments

YOUR **NEW** PROPOSAL PROCESS -**QES ACCESS REPORTING**

• For standard proposal requests, Sales Teams utilize the Self-Service Tool within QES to build responses using pre-built templates and rules established by analysts

access reports simultaneously to evaluate potential market fit
